

## TRY THIS! - RE

### MAKE YOUR OWN SYMBOL

Symbols stand for something beyond what they are in themselves e.g. a letter, figure, character or mark which is used to represent something else.

All the World Religions use symbols to represent ideas or values that religious people draw inspiration from. However, symbols are used throughout society which we see on a daily basis e.g. parking signs, roadwork signs, no smoking signs, etc. Why not get creative and design a symbol that represents you. You can think about the following ideas to help you decide what you would choose such as:

- Your beliefs and values
- Your likes/dislikes
- Your hobbies/interests
- What's important in your life?
